TICKET FRAUD & SCALPING

INFLATED PRICING RESALES

0 1 1 1
1 1 0 1
1 0 0 1

Ticket
bots

Inflated prices in
secondary markets

Organisers
lose revenue

Fake or already
scanned tickets

The root of the problem: the static qr code ticket.

UPGRADE OF THE DIGITAL TICKET:

→ EOSIO ticketing engine (blockchain protocol):

Ticket is a non fungible token (NFT) with embedded business logic (organizer's rules governing its entire lifecycle).

→ Innovative ticket delivery:

Dynamic qr code (currently)

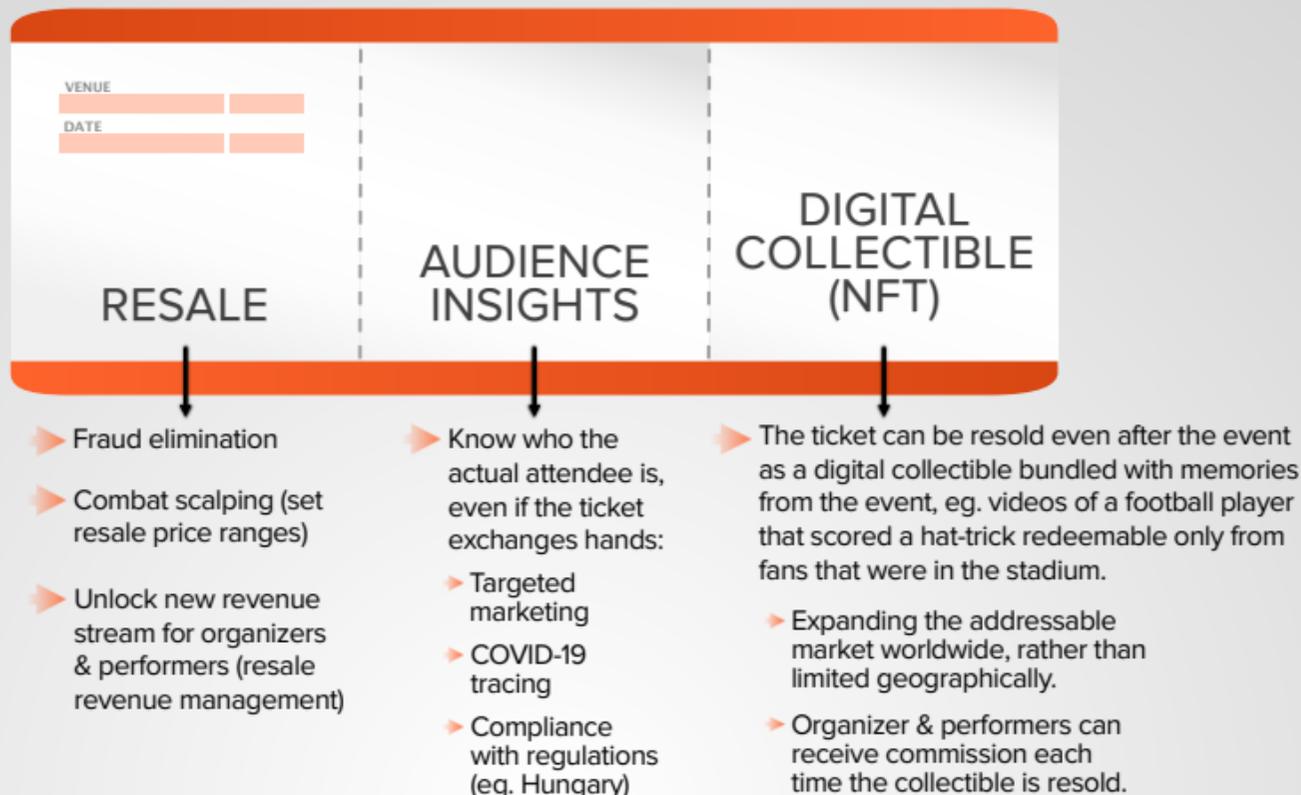

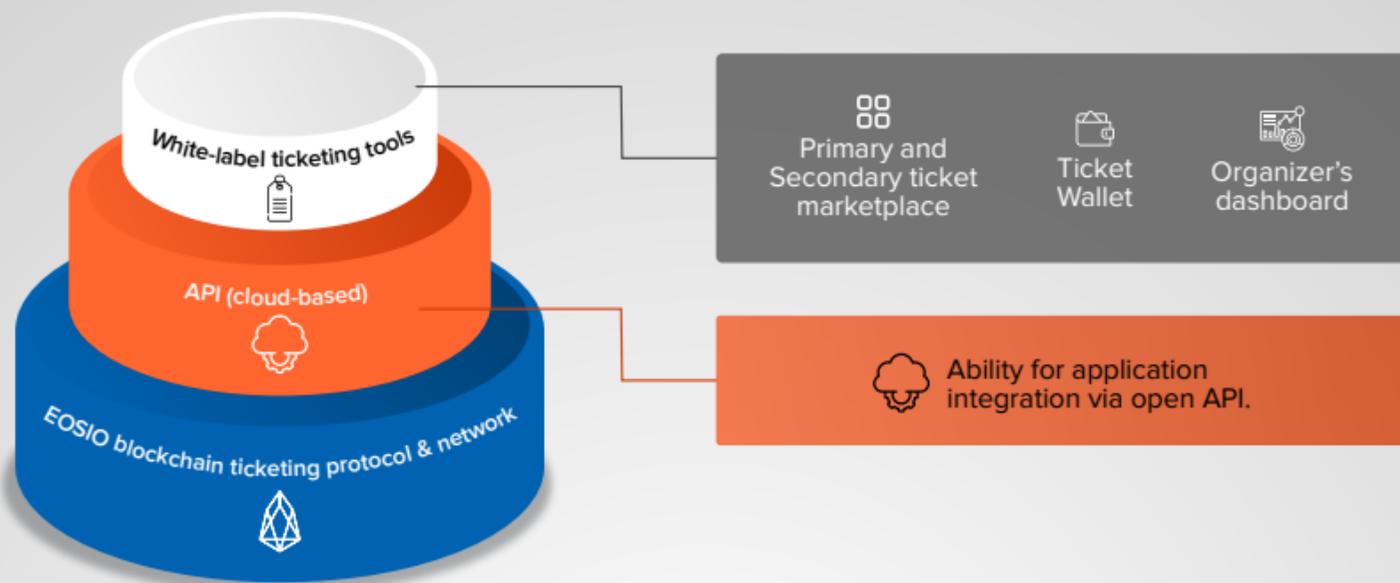

Bluetooth (work in progress)

Biometrics and decentralized proof of location (future)

CONTROL & TRACKING OF THE TICKET

Target Customers:

- Event organizers who want to offer their own branded ticketing.
- Ticketing companies (especially small and medium).

•Live: <https://app.cometogether.live>

•Demo: <http://bit.ly/CTdmwrs1>

✓Plug and play White-label

✓Seamless secondary market functionality

AND NOW WITH COVID-19?

Event industry shutdown during lockdowns / many events cancelled or take place at limited capacity.

The background of the slide is a vibrant, high-energy event scene, likely a concert or festival. It features a dense crowd of people in the foreground, their silhouettes against a backdrop of intense, colorful stage lighting in shades of purple, blue, and green. The scene is filled with smoke or haze, and bright beams of light cut through the air. Overlaid on this scene are two large, semi-transparent text elements: 'CANCELLED' in the upper left and 'POSTPONED' in the lower right, both in a bold, black, sans-serif font. The text is slightly tilted and has a subtle glow, making it stand out against the busy background.

CANCELLED

POSTPONED

BackTogether

Health Passport

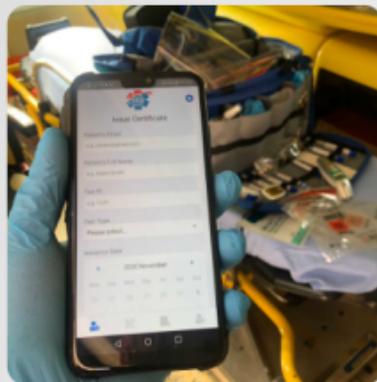

- COVID-19 test (eg. RT-PCR, rapid) status.
- Antibody test status.
- Vaccination status.
